

Parent Portal Creation for 8th Grade Parents

To the parents of rising 9th graders:

Very soon you will begin the process of helping your 8th grader make decisions about high school courses and pathways. The easiest way for you to stay involved in this process is through your Parent Portal Account in Infinite Campus. If you do not have an account, please use the information below to create your account. A very important student elective course survey will be emailed to your email on file. **Your parent portal account ensures you receive all correspondence regarding high school registration.** Please feel free to contact your child's school if you need assistance with Parent Portal.
